PROFESSIONAL SUMMARY

Cloud and DevOps Engineer with a strong engineering and automation background, delivering reliable, optimized, and high-performing systems. Expert in designing and implementing CI/CD pipelines and automating infrastructure using Terraform (IaC). Proficient in containerization with Docker, orchestration with Amazon EKS, and deploying scalable, secure AWS environments. Skilled in DevSecOps integration, cloud security, monitoring, observability, and configuration management to drive efficiency and resilience. Focused on automation, high-availability architecture, and building secure, scalable cloud solutions that support business growth.

TECHNICAL SKILLS

- Cloud Platforms: *AWS (EC2, S3, IAM, VPC, ALB, Auto Scaling, Route 53, EKS, CloudWatch)*
- Infrastructure as Code: *Terraform, CloudFormation*
- Containerization & Orchestration: *Docker, Docker-Swarm, Kubernetes (EKS)*
- CI/CD & DevSecOps: *Jenkins, GitHub Actions, Pipeline Automation, Security Scanning Integration*
- Configuration Management: *Ansible*
- Monitoring & Observability: *CloudWatch*
- Version Control: *Git, GitHub*
- Storage: *S3 (Versioning, lifecycle policies, static hosting), EBS*
- Operating Systems: *Linux, Windows*
- Networking: *DNS, Load Balancing, TCP/IP fundamentals*
- Programming & Scripting: *Python, Bash, PowerShell*
- Collaboration Tools: *Slack, Microsoft Teams, Jira, Confluence*
- Security: *IAM, RBAC, SSL/TLS, Access Controls*

CLOUD & DEVOPS PROJECTS

AWS Cloud Infrastructure & DevOps Implementation *Jul 2025 – Feb 2026*

- Designed and implemented CI/CD pipelines using Jenkins and GitHub Actions, reducing deployment time by 50%.
- Automated AWS infrastructure with Terraform, accelerating environment setup by 70%.
- Containerized applications using Docker and deployed on EKS, improving system scalability and uptime.
- Configured EC2 instances, Application Load Balancers, Auto Scaling, and Route 53**,** achieving high availability across environments.
- Implemented monitoring and observability using CloudWatch reducing incident resolution time by 40%**.**
- Strengthened cloud security through IAM policies, SSL/TLS encryption, and access controls.
- Automated configuration management and system setup using Ansible, standardizing deployments across multiple environments.

- Developed backup, disaster recovery, and high-availability strategies to ensure business continuity.
- Optimized cloud resource usage and costs through monitoring, right-sizing, and automated shutdown policies.
- Troubleshot production issues and performance bottlenecks**,** improving system reliability and user experience.

PROFESSIONAL EXPERIENCE

Administrative Assistant & Kettle Coordinator – The Salvation Army (Scarborough, ON)
Aug 2021 – Present

- Managed data reporting and documentation processes ensuring accuracy and compliance.
- Coordinated cross-functional teams across distributed locations.
- Generated daily, weekly, and monthly structured operational reports.
- Implemented process improvements increasing operational efficiency.
- Maintained secure handling of financial and sensitive data.

Production Technician – CVL (Toronto, ON)
Oct 2020 – Aug 2021

- Performed system maintenance and troubleshooting in a production environment.
- Diagnosed and resolved system-level issues to reduce downtime.
- Ensured operational continuity under tight timelines.
- Followed documented procedures and contributed to process improvements.

Maintenance Supervisor – Universal Voltas LLC (UAE)
Mar 2017 – Dec 2019

- Increased preventive maintenance efficiency from 70% to 95% through structured workflow optimization.
- Supervised technical teams managing infrastructure systems across multiple facilities.
- Reduced operational overtime costs through scheduling optimization.
- Ensured system reliability and compliance with safety standards.

EDUCATION

- Diploma in Electromechanical Engineering (Automation & Robotics), Centennial College, Toronto, ON
  Jan 2020 - Aug 2020
- Masters in Ceramic Technology (WES Evaluated), Anna University, India
  Sep 2014 - May 2016
- Bachelor of Electronics & Communication Engineering (WES Evaluated), Anna University, India
  Sep 2010 - May 2014
